C-prints

Held in Nevada's Black Rock Desert, Burning Man is an amazing experience of human creativity and exuberance in an extreme environment. The festival draws thousands of people from around the world annually. I attended Burning Man in 2000, 2001 and 2007. I'd like to acknowledge the Hawaii State Foundation on Culture and the Arts, which acquired several prints from my *Garden Cemetery* series from *Biennial V* in 2001. This acquisition, in part, enabled me to return to Burning Man and continue my documentation of the festival that year.
