Honolulu Museum of Art

Art of the Ancient World Tour

Student Artifact Journal

Welcome to the Honolulu Museum of Art

Follow this guide to find works of art from ancient times.

Analyze each work as an **archeologist**.
Observe the **artifact** very carefully.
Document your **observations** and record your **analysis**.

When you look at ancient art, ask yourself these questions:

- How old is this object?
- What can this object tell me about this time and place?
- What is the material?
- Where might it have been found?
- Why was it made?
- Who might have used it?
- What technology was needed to create this object?
- Does it matter if it is broken?

Date 7th C
Civilization Uttar Pradesh, India
Name Surya
Materials Yellow Sandstone
Why was this object made?

Date 5th C AD
Civilization India
Name Mithuna
Materials Terracotta
Why was this object made?

On each page, complete the drawing to help you look closely.

Write down some **distinguishing features** you notice. Draw a line to that characteristic.
These observations might give you clues about the culture or how the object was used.

Write down why you think the object was created.

A finished page might look like this:

Date 2350-2170 BC
Location Egypt
Name Male Figure
